1.1. INTRODUCTION

PAS 2060 INFORMATION REQUIREMENT	INFORMATION AS IT RELATES TO THE ORGANISATION SELF-CERTIFYING
Entity making the PAS2060 declaration	IG Group plc
Subject of the PAS2060 declaration	The global operations of IG Group plc and its subsidiaries.
Description of the organisation	IG Group provides trading in financial derivatives such as contracts for difference and financial spread betting and stockbroking to retail traders.
Rationale for the selection of the subject	The scope and subject of this PAS2060 includes all emissions based on the operational control principle defined in the WBCSD / WRI GHG Protocol – Corporate Standard.
Type of certification undertaken	Other party verification
Baseline period for the PAS2060 programme	1 st June 2019 to 31 st May 2020
Achievement period	1 st June 2020 to 31 st May 2021
Commitment period	1 st June 2021 to 31 st May 2022
Baseline date	1 st June 2019
Inclusion of historic reductions prior to the baseline date to allow declaration in Baseline period	Yes, historic emissions reductions prior to the baseline date were included to permit a Declaration of Achievement for the Baseline Period (FY20).

This qualifying statement contains information providing evidence that IG Group plc have demonstrated carbon neutrality. All information hereafter is believed to be correct at the time of publishing. Should any change in circumstance occur that affects the validity of a carbon neutrality claim by IG Group plc, this document will be updated accordingly.

2.1. BASELINE, ACHIEVEMENT AND COMMITMENT PERIODS

The baseline date is 31st May 2019; period 1 was 1st June 2019 to 31st May 2020. Qualifying Date 1 is 30th June 2021; Period 2 is 1st June 2020 to 31st May 2021.

This diagram illustrates the baseline, achievement and commitment periods for demonstrating carbon neutrality in line with the PAS 2060 method. IG Group plc will fully offset all carbon emissions and produce a carbon offset strategy and carbon management plan in order to demonstrate carbon neutrality and commit to carbon emissions reductions relative to the baseline period in subsequent commitment periods.

To formally confirm this commitment, please see below statement by a Director of IG Group plc:

We confirm our understanding that IG Group plc achieved carbon neutrality for the period 1st June 2020 to 31st May 2021 in accordance with PAS2060 with a commitment to maintain until at least 31st May 2022.

3.1. DECLARATION OF ACHIEVEMENT OF CARBON NEUTRALITY

The below table outlines the key information required to be declared to be compliant with the self-certified declaration of carbon neutrality under the PAS 2060 method.

PAS 2060 INFORMATION REQUIREMENT	INFORMATION AS IT RELATES TO THE ORGANISATION SELF-CERTIFYING
State the period during which the entity is demonstrating achievement of carbon neutrality of the subject	1 st June 2020 to 31 st May 2021
Carbon footprint of the subject for the period stated above	22,163.73 tCO ₂ e
Which method, as defined by PAS2060, has been followed to achieve carbon neutrality?	OPV-2 (Other party validated – achievement)
How have the reductions in GHG emissions during this period been achieved?	Improvements to UK data centres; ongoing behavioural improvements; more efficient technology.
Location of GHG emissions report supporting this claim	Section 4.1 – Statement of Carbon Emissions
Location of the details describing internal reductions during the period	Appendix B: Carbon Management Plan Assessment
Location of the details describing the carbon offsets	Appendix C: Carbon Offset Strategy
Economic growth rate over the application period in the countries in which the carbon emissions have been emitted	0 (-2.9%)
Individuals/entity responsible for the provision of data necessary for demonstrating carbon neutrality of the entity	Ben Hemington
Senior representative responsible for the declaration of carbon neutrality for the entity	Refer to section 2.1
Signature of the senior representative	Refer to section 2.1

4.1. STATEMENT OF CARBON EMISSIONS

The below section outlines the assessed carbon footprint that has been considered to be the subject of this declaration of carbon neutrality.

4.2.1. SCOPE 1 EMISSIONS

GHG PROTOCOL SCOPE	SUB-CATEGORY	2019-20 TCO2E	2020-21 TCO2E
Scope 1	Operation of facilities	469.91	437.18
Scope 1	Combustion	110.93	168.36
Scope 1		580.84	605.54

The table above states the total carbon emissions (CO₂e) for Scope 1.

4.3.1. SCOPE 2 EMISSIONS

GHG PROTOCOL SCOPE	SUB-CATEGORY	2019-20 TCO2E	2020-21 TCO2E
Scope 2	Scope 2 emissions	2,743.28	2,320.83
Scope 2		2,743.28	2,320.83

The table above states the total carbon emissions (CO₂e) for Scope 2.

4.4.1. SCOPE 3 EMISSIONS

GHG PROTOCOL SCOPE	SUB-CATEGORY	2019-20 TCO2E	2020-21 TCO2E
Scope 3	Business travel	1,427.38	15.36
	Employee commuting	862.4	706.23
	Fuel and energy-related activities	709.4	566.31
	Purchased goods and services	14,718.20	17,892.12
	Waste generated in operations	56.7	57.34
Scope 3		17,774.08	19,237.36

The table above states the total carbon emissions (CO₂e) for Scope 3.

4.5.1. SUMMARY

The below pie chart shows a breakdown of emissions scopes.

Table of scope 1, scope 2 and scope 3 breakdown

The total carbon emissions for IG Group plc for the reporting period 1st June 2020 to 31st May 2021 is 22,163.73 tCO₂e. This is the sum of all emissions as a result of the business activities – direct and indirect – of IG Group plc. The quantified footprint covered is as accurate as is reasonably possible.

Absolute emissions have increased due to more employees being in our employment and due to the addition of calculating homeworking emissions associated with the impact of the COVID-19 pandemic, but our relative emissions have fallen. The table above has been broken down to show the significance of the homeworking emissions (which are included under the ‘Employee commuting’ category when not separately itemized).

APPENDIX A - METHODOLOGY

All calculations were made in accordance with the Greenhouse Gas (GHG) Protocol, categorising emissions as Scope 1, 2 and 3. Emissions are calculated from the DEFRA Conversion Factors for Company Reporting, which convert all emissions to CO₂e (Carbon dioxide equivalent). These methods are widely recognised and recommended for the reporting of GHG emissions for PAS 2060.

EMISSION TYPE	DATA SUMMARY <i>(Each statement is in the hierarchy of data used)</i>
Electricity	Supplier records; where suitable calculations from the cost; or appropriate benchmarks
Diesel	Supplier records; where suitable calculations from the cost; or appropriate benchmarks
Natural Gas	Supplier records; where suitable calculations from the cost; or appropriate benchmarks
F-Gas (Refrigerants)	Refrigerant recharge records;
Water	From water supplier records; where suitable calculations from the cost of water services; or appropriate benchmarks
Waste	From waste management supplier records; where suitable calculations from the cost of waste services; or appropriate benchmarks
Business Travel	Data from IG Group plc business travel system
Purchasing of Goods and Services	Analysis based upon expenditure in the respective purchasing categories
Employee Commuting	An analysis of employee volumes and use of transport systems in the local country (adjusted for COVID-19 office pattern). Homeworking emissions calculated using single room estimation method provided by Energise Ltd (https://www.energise.com/post/accounting-for-your-work-from-home-emissions)
All types	Where required direct comparisons to previous periods

APPENDIX B – CARBON MANAGEMENT PLAN ASSESSMENT

The below outlines the carbon management plan that is to operate alongside offset to enable the carbon neutrality declared in this statement.

B.1. REDUCTION PLAN FOR THE COMMITMENT PERIOD

Our ongoing initiatives and investments in this area are developed as part of our Brighter Future programme and we continue to develop our specific focus on this area under our Carbon Management Plan. Our emissions reduction plan for the commitment period focuses on:

- 1) Engagement of employees in reduction of resource use via IG Brighter Future programme
- 2) Further Net Zero data and reporting system improvements
- 3) Ongoing optimisation of PUE (power usage effectiveness) in UK data centres
- 4) Further development of existing solutions
- 5) Engagement with suppliers in supply chain to increase data quality and reduce emissions where possible

We summarise our activities in our Annual Report, and in the last year our activity can be summarised as:

IG Group is actively managing our energy efficiency. Our global team are collectively engaged in energy efficiency (and other sustainability initiatives) via our Brighter Future initiatives. We have also achieved efficiencies by replacing old back-up generators and UPS systems in our UK data centres, and continued to implement recommendations from a recycling improvement plan that followed an audit of our head offices in London. Finally, we are working to identify a Pathway to Net Zero. This will be underpinned by an annual strategy incorporating annual objectives, targets and ongoing monitoring of our emissions reductions against our FY19 baseline.

B.2. EMISSIONS REDUCTION TARGETS FOR THE COMMITMENT PERIOD (AP2)

Our emissions reduction target for the commitment period is 2.5% on a relative basis.

B.3. TRANSPARENCY

We will report our activities to reduce emissions in our Annual Report moving forward and provide information on our actions taken within the Annual Report. This will be available on our website once published. Performance against our target will be reported in our Annual Report from FY2021 onwards.

APPENDIX C – CARBON OFFSET STRATEGY

C.1. CARBON EMISSIONS TO BE OFFSET:

The total carbon emissions to be offset are 22,163.73 tCO₂e.

C.2. SOURCE OF CARBON OFFSETS

FY21 Carbon offsets are awaiting retirement. See section C.3 for list of registries where they will be visible.

The following carbon offsets have been used to rebalance the residual emissions of IG Group plc:

TYPE	COUNTRY	STANDARD	UNITS (tCO ₂ e)	RETIREMENT LINK
Biomass	Russian Federation	Gold Standard	919	https://registry.goldstandard.org/credit-blocks
Renewable Energy (Wind/Solar/Hydro)	Turkey	Gold Standard	239	https://registry.goldstandard.org/credit-blocks
Renewable Energy (Wind/Solar/Hydro)	Turkey	Gold Standard	189	https://registry.goldstandard.org/credit-blocks
Renewable Energy (Wind/Solar/Hydro)	China	VCS	19850	https://registry.verra.org/
Low Carbon Transport	India	CDM CER	900	https://cdm.unfccc.int/Registry/vc_attest/index.html
Renewable Energy (Wind/Solar/Hydro)	China	Gold Standard	71	https://registry.goldstandard.org/credit-blocks

Credits are valid for use in PAS 2060 standard

C.3. LOCATION OF THE RETIRED CREDITS

Retired credits can be located for the above projects (will be retired within 12 months of the achievement date - 31st May 2021):

UN CDM: https://cdm.unfccc.int/Registry/vc_attest/index.html

Gold Standard: <https://registry.goldstandard.org/credit-blocks>

VCS: <https://registry.verra.org/>

IHS MarkIt: <https://mer.markit.com/br-reg/public/index.jsp?s=ca>

C.4. COMMITMENT TO CARBON NEUTRALITY

The entity will commit to monitor, reduce and declare all of its carbon equivalent emissions for the commitment period and will subsequently offset the declared emissions using a genuine source of carbon credits for the same period.

APPENDIX D – PAS2060 QUALITY ASSURANCE CHECKLIST

CHECK #	PAS 2060 REQUIREMENT	SECTION
1	Define standard and methodology use to determine its GHG emissions reductions	Appendix A
2	Confirm that the methodology used was applied in accordance with its provisions and principles set out in PAS 2060 were met	Introduction
3	Provide justification for the selection of the methodologies chosen to quantify the reductions in the carbon footprint, including all assumptions and calculations made and any assessments of uncertainty. (The methodology employed to quantify reductions shall be the same as that used to quantify the original carbon footprint. Should an alternative methodology be available that would reduce uncertainty and yield more accurate, consistent and reproducible results, then this may be used provided the original carbon footprint is re-quantified to the same methodology, for comparison purposes. Recalculated carbon footprints shall use the most recently available emissions factors, ensuring that for purposes of comparison with the original calculation, any change in the factors used is taken into account)	Appendix A
4	Describe the means by which reductions have been achieved and any applicable assumptions or justifications	Appendix B
5	Ensure that there has been no change to the definition of the subject (The entity shall ensure that the definition of the subject remains unchanged through each and every stage of the methodology. In the event that material change to the subject occurs, the sequence shall be re-started on the basis of a newly defined subject.)	Introduction
6	Describe the actual reductions achieved in absolute and intensity terms and as a percentage of the original carbon footprint (Quantified GHG emissions reductions shall be expressed in absolute terms and shall relate to the application period selected and/or shall be expressed in emission intensity terms (e.g. per specified unit of product or instance of service))	Statement of Carbon Emissions; Appendix B
7	State the baseline/qualification date	Baseline, Achievement and Commitment Periods
8	Record the percentage economic growth rate for the given application period used as a threshold for recognising reductions in intensity terms	Declaration of Achievement of Carbon Neutrality
9	Provide an explanation for circumstances where a GHG reduction in intensity terms is accompanied by an increase in absolute terms for the determined subject	Statement of Carbon Emissions
10	Select and document the standard and methodology used to achieve carbon offset	Introduction; Appendix A

11	Confirm that:	
	Offsets purchased or allowance credits surrendered represent genuine, additional GHG emission reductions elsewhere –a	Appendix C
	Projects involved in delivering offsets meet the criteria of additionality, permanence, leakage and double counting. (See the WRI Greenhouse Gas Protocol for definitions of additionality, permanence, leakage and double counting) -b	Appendix C
	Carbon offsets are verified by an independent third-party verifier -c	Appendix C
	Credits from Carbon offset projects are only issued after emission reduction has taken place -d	Appendix C
	Credits from Carbon offset projects are retired within 12 months from the date of the declaration of achievement -e	Appendix C
	Credits from Carbon offset projects are supported by publicly available project documentation on a registry which shall provide information about the offset project, quantification methodology and validation and verification procedures –f	Appendix C
	Credits from Carbon offset projects are stored and retired in an independent and credible registry –g	Appendix C
12	Document the quantity of GHG emissions offset and the type and nature of offsets actually purchased including the number and type of credits used and the time period over which credits were generated including: Which GHG emissions have been offset –a	Appendix C
	The actual amount of carbon offset – b	Appendix C
	The type of offset and projects involved – c	Appendix C
	The number and type of carbon offset credits used and the time period over which the credits have been generated -d	Appendix C
	Information regarding the retirement/cancellation of carbon offset credits to prevent their use by others including a link to the registry where the offset has been retired –e	Appendix C
13	Specify the type of conformity assessment a- Independent third party certification	Appendix C
	b- Other party validation	Appendix C
	c- Self-validation	
14	Include statements of validation where declarations of achievement of carbon neutrality are validated by a third party certifier or second party organizations.	N/A
15	Date the WES and have it signed by a senior representative of the entity concerned	Declaration of Achievement of Carbon Neutrality
16	Make QES publicly available and provide a reference to any freely accessible information upon which the substantiation depends	Y

QES openness and clarity – Entities should satisfy themselves that the QES:

1	Does not suggest a reduction which does not exist, either directly or by implication	Y
2	Is not presented in a manner which implies that the declaration is endorsed or certified by an independent third party organisation when it is not	Y
3	Is not likely to be misinterpreted or be misleading as a result of the omission of relative facts	Y
4	Is readily available to any interested party	Y

Electronic Record and Signature Disclosure

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, IG Markets Limited (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to this Electronic Record and Signature Disclosure (ERSD), please confirm your agreement by selecting the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a \$0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

How to contact IG Markets Limited:

You may contact us to let us know of your changes as to how we may contact you electronically, to request paper copies of certain information from us, and to withdraw your prior consent to receive notices and disclosures electronically as follows:

To contact us by email send messages to: michael.wyett@ig.com

To advise IG Markets Limited of your new email address

To let us know of a change in your email address where we should send notices and disclosures electronically to you, you must send an email message to us at michael.wyett@ig.com and in the body of such request you must state: your previous email address, your new email address. We do not require any other information from you to change your email address.

If you created a DocuSign account, you may update it with your new email address through your account preferences.

To request paper copies from IG Markets Limited

To request delivery from us of paper copies of the notices and disclosures previously provided by us to you electronically, you must send us an email to michael.wyett@ig.com and in the body of such request you must state your email address, full name, mailing address, and telephone number. We will bill you for any fees at that time, if any.

To withdraw your consent with IG Markets Limited

To inform us that you no longer wish to receive future notices and disclosures in electronic format you may:

- i. decline to sign a document from within your signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may;
- ii. send us an email to michael.wyett@ig.com and in the body of such request you must state your email, full name, mailing address, and telephone number. We do not need any other information from you to withdraw consent.. The consequences of your withdrawing consent for online documents will be that transactions may take a longer time to process..

Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current system requirements are found here: <https://support.docusign.com/guides/signer-guide-signing-system-requirements>.

Acknowledging your access and consent to receive and sign documents electronically

To confirm to us that you can access this information electronically, which will be similar to other electronic notices and disclosures that we will provide to you, please confirm that you have read this ERSD, and (i) that you are able to print on paper or electronically save this ERSD for your future reference and access; or (ii) that you are able to email this ERSD to an email address where you will be able to print on paper or save it for your future reference and access. Further, if you consent to receiving notices and disclosures exclusively in electronic format as described herein, then select the check-box next to ‘I agree to use electronic records and signatures’ before clicking ‘CONTINUE’ within the DocuSign system.

By selecting the check-box next to ‘I agree to use electronic records and signatures’, you confirm that:

- You can access and read this Electronic Record and Signature Disclosure; and
- You can print on paper this Electronic Record and Signature Disclosure, or save or send this Electronic Record and Disclosure to a location where you can print it, for future reference and access; and
- Until or unless you notify IG Markets Limited as described above, you consent to receive exclusively through electronic means all notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you by IG Markets Limited during the course of your relationship with IG Markets Limited.
